“ *My sister lived life on her own terms. She had strong convictions and strong values ! She always led the charge...fearless and brave...she did things I would never had the courage to do. There were no gray areas with Angela things were either black or white! I loved her for this! I loved her for being my sister and always being there for me and heather. She has helped me through some very tough times . We have cried together, laughed together , disagreed, made up , yelled, hugged got into trouble . We've been through everything together. She was a good hearted wonderful person. I will always love and miss her!*
