“ *Thank you all for the sweet messages about our loss. Its been absolutely the toughest thing,to behold watching the life of a woman you thought would be here forever leave before your very eyes. I thank God for every moment we shared,she is at peace now. The picture that shows on her obituary is not her,it is my Great Grandmother,who was her mother,so quite close,however we are working to get mamaws picture posted in that place. It simply was the order of the pics turned in. Madden was wonderful to us and we appreciate all they did. I love you mamaw and think of you daily,hourly,and always will. Love to all, Michelle*
