“ *To my baby sister, It seems as it was only yesterday we were children playing in the yard and having so much fun. I'm sorry i can't be there to see you off but i could not get home and i know if i had talked to you, you would say, I understand like you would always tell me when i couldn't do something for you. It's with deep sorrow i write this to you but i know it was time for you to go on and be with Mama and daddy and all our loved one's that have gone before you. It would have been nice if you would have waited until i could come home again before you left. I am so happy we all were able to meet for lunch the last time i was in and i will always hold that day near to my heart. I think the funnest thing i can remember of our life is the time you got a baby doll for Christmas and i cut the doll's hair off thinking it would grow back and you got so mad at me. Baby sister i will go now and i will miss you so very much. Love you baby sister.*
