“ I am sorry to hear that Mike has passed on he was a good friend in school. Loved to tease me but always did it in a nice way. I knew I could count on him if I needed something. I never had the chance to meet you and his family in Ark. wish I had, but you have my prayers to get through this. Remember the good times.

“ My thoughts and prayers to you Aunt Judy. Uncle Mike will be missed by all who loved him. I remember Christmas at Grandma and Grandpa Stewart's out on the farm. Uncle Mike loved those times.

“ I remember Mike and Clarence peeking in our girls' room and Dad sitting out in the back driveway on the lowboy trailer waiting for you two. Haven't seen Mike for years. I use to babysit for little Tommy and Sonia when they lived in Auburn. Looks like you had a great life Mike. RIP Mike. Say Hi to Dad and Mary for me.

“ So sad to hear of Mike's passing. About two years ago, Mike and I were able to connect again and it was good to hear from him. He commented about a few gray hairs and his beard. It was suggested he come to our 40th anniversary class reunion in 2014 and he would give that a thought. I am sorry he won't be able to be here.

He was one of the first friends I had moving into the LVA school district from Wall Lake way back in second grade. He sat in the desk right in front of me.

His daughter, Sonya, used to spend many afternoons playing with my daughter as they were in the same elementary class together.

All good memories.

“ I spent a lot of time growing up with Mike. Rode milk cows "Brownny" and "Blacky" together. Rode his Shetland pony "Joker". Rode their Go-cart through the cow manured pasture together. Rode their Cushman scooter together. We boasted about our dogs "Trixie" and "Laddie". We started a grass fire that accidently got out of control, together (got wooped for that). We went swimming together in the Raccoon River, Grant City clay pit, and even a dirty pig wallow in front of the old Egg building. We went sledding down Nut Cracker hill together, *busted my butt on a big rock. I always got hurt, he never did. He pulled me on a car hood through the snow behind an old John Deere "A" tractor. Smoked cigarettes together (idiots)! He showed me how to chew chewing tobacco (man did I get sick). We did a little Ham radio together. We rebuilt the engine in the first car I ever owned, we smiled went it first started to run. He taught me how the race shift the 4 on the floor transmission. We drove cars through the Iowa ditches (crazy). Even did a little squirrel and coon hunting and blackhead fishing together. He taught me a little about girls and drinking beer. Took me with him on a trip to Des Moines in the 18-wheeler he drove for a while (got stopped by the Carroll police for burnt-out trailer lights). A life well lived!
